Spring Recruitment

## Internships & Jobs

With Fall Ag Career Day having been mere weeks ago, it may come as a surprise to some of how fast the job recruitment, interviewing, and confirmation process can be. Of 80 responses to the surveyed actives, 38% have already confirmed a summer internship or full-time position at this time. Although the chart reflects that 12.7% of the surveyed have full time employment, in reality ~50% of the senior class have made their employment decision for post-graduation. It may be interesting to find that 18% of surveyed actives will be returning home for the summer or post-graduation. The survey results are visible in the chart below.

## Spring Recruitment

The Eta active recruitment team, headed by Jake Kent, "2088", has been hard at work recruiting for this coming spring. Our goal is to have four potential new members signed by Thanksgiving Break!
