AGR Recruitment Help

Hello everyone,

As summer gets in full swing and planting comes to an end, the recruitment team would like to share an update with you. We are on the tail end of recruiting for the Fall 2018 New Initiate Class, but if you still have any names of graduating seniors in high school that you believe would be a good fit, make sure you get those names to me as soon as possible.

With that being said, I want to also address the importance of of you providing us with names of quality candidates that just finished their junior year of high school. This is far more important than past years due to the fact that ISU housing has moved up their contract break deadline to May 1st of 2019. This means that before the end of the academic school year next year, we will have to have already recruited and selected the N.I. Class of 2019. If we don't adapt to this change and plan ahead now, we would be at risk of paying 50% of the housing contract that a PNM had in place. If you know any juniors in high school that you think would be a good fit for Eta Chapter and believe that we should take a look at them, please reach out to us with their information by filling out the Alumni Recommendation Form on the ISU AGR website or contact me through email or cell.

We have a Summer Recruitment Committee that is planning to travel around the state of Iowa and neighboring states with the goal of meeting and interacting with high schoolers before they begin their senior year of high school. This will help us inform prospective members about what Alpha Gamma Rho is and allow us the opportunity to set the precedent as to what we are expecting with membership. Alpha Gamma Rho is looking for individuals that are successful academically, involved in high school activities, and socially interactive. Most importantly, we're looking for self-motivated individuals who are willing to put in hard work to succeed. By beginning to recruit potential new members in their Junior year, it will give those students that may be struggling with a specific area in which we place importance time to work to improve. It will also serve as a resource to the high schoolers that are interested in the house and provide

them with answers about the transition from high school to college. Again, please feel free to call or email me at any time with names and/or contact information of prospective members. You, as alumni, play an extremely important role in helping us to build our list of Potential New Initiates.

Best,
